

① Don reads oven-related recipe steps out loud.

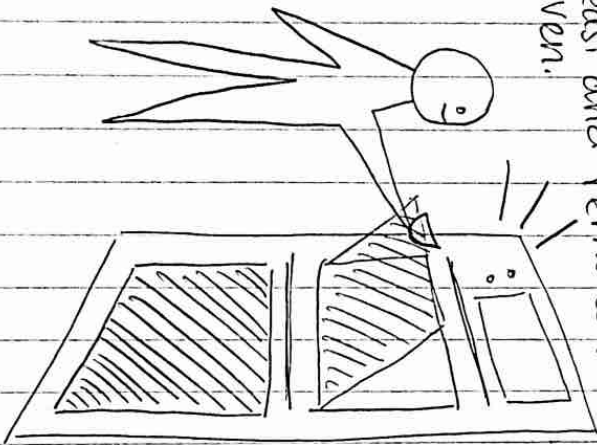

② Oven repeats back the recipe steps.

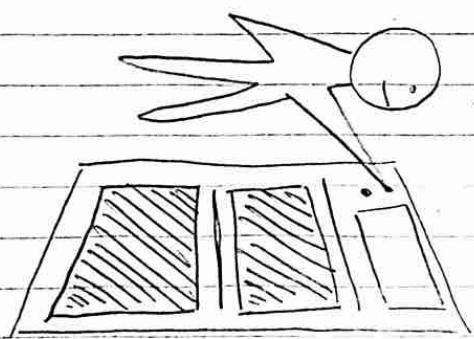

③ Oven notifies Don that 2 minutes remain until step 4 is complete.

④ oven tells Don step 1 is complete. Don checks yeast and removes from oven.

⑤ Don confirms steps are correct + pushes button to start the process.

⑥ oven reads out step 1 to notify Don it is ready with timer set and temperature reached. Don places yeast in oven.
